Voage Learning Changes

Portal Changes:

1. Login System – remove OTP system for the Student, Educator and mentor.
2. Add footer in login page same as website.
3. In Educator multiple degree upload option.
4. Register educator from the website and after the interview cracked, he can able to login and get the access of portal.
5. Assign batch if already register students and not assign any batch.
6. Notice goes over email also.
7. Show all course list over website which add by admin in admin panel means dynamic
8. For one-to-one class create option and dynamic class schedule.
9. Select single student also where we can select batch means both options needed.
10. Educator see only those students list and only see name not other thing which assign him.
11. When student register then then educator assign option also need means in drop down show.
12. Home work also gives only single student too.
    profile update request to admin.
13. Mentor can see only assigned him educator mentor's data.
    new module - Class notes of particular notes. ☞ class

Note: apart from that if any other changes missing or add extra, please let me know.

Website changes:

1. Read more and book a free demo button UI change means responsive ness.
